

Landing at Shadow Creek

Collaboration creates a timeless design

In the fast-growing community of Waukee, we designed and built this single-story modern retail center in a collaborative effort with our client. Our shared goal: To create a timeless facility that compliments the surrounding area. Constructed of steel with glass, stone, and a wood-panel exterior, Landing at Shadow Creek offers an inviting setting that tenants will appreciate for decades to come.

PROJECT:

- 15,300 SF
- New Construction
- Steel construction with glass, stone and wood panel exterior
- Estimated completion May 2018

LANDMARK'S ROLE:

- General Contractor
